EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Daniel Podhajny (Reg. No. 57,687) on November 2005.

The application has been amended as follows:

- In claim 27, line 9, "second cell" has been changed to --second cell, wherein the first cell on the first path runs in an opposite direction as the second cell on the second path such that at any location in the network both the first and second cells are available--.
- In claim 38, line 8, "second cell" has been changed to --second cell, wherein the first cell on the first path runs in an opposite direction as the second cell on the second path such that at any location in the network both the first and second cells are available--.

2. The following is an examiner's statement of reasons for allowance: the prior art does not disclose or fairly suggest replacing less than all of a first plurality of components in a first cell on a first path with less than all of a second plurality of components in a second cell on a second path where the two paths run in opposite directions such that at any location in the network both the first and second cells are available.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
